White Rose

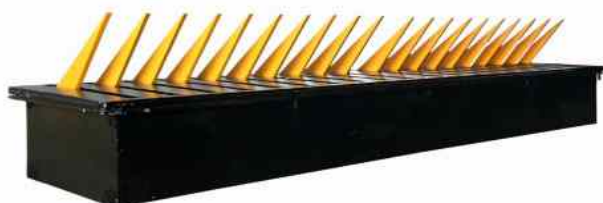

Strong Block, Safe Passage

White Rose took its place among the world actors in the automation sector with the products it developed constantly and the projects it realized.

In the globalized economy doing only your work is no longer Sufficient. In the globalized world you have to be an expert in your sector. You must both do your work perfectly and also gain your sector brand new innovative products. You must organize partners who will be happy to work with you and become solution partners. This can only be organized in institutions with workers kneaded with science-technology culture that invest money in research and development. With this important target, we are giving direction to the future of automation also by producing solutions to the requirements of this date with our efforts. Therefore, White Rose is holding the title of shining star of the sector in its hands with an experience of 25 years.

To good days together.....

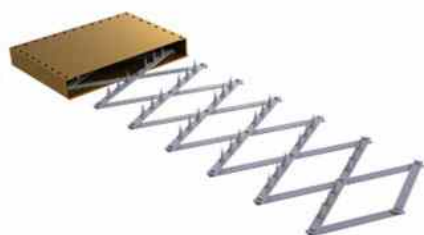

Hydraulic Traps

Manual Traps

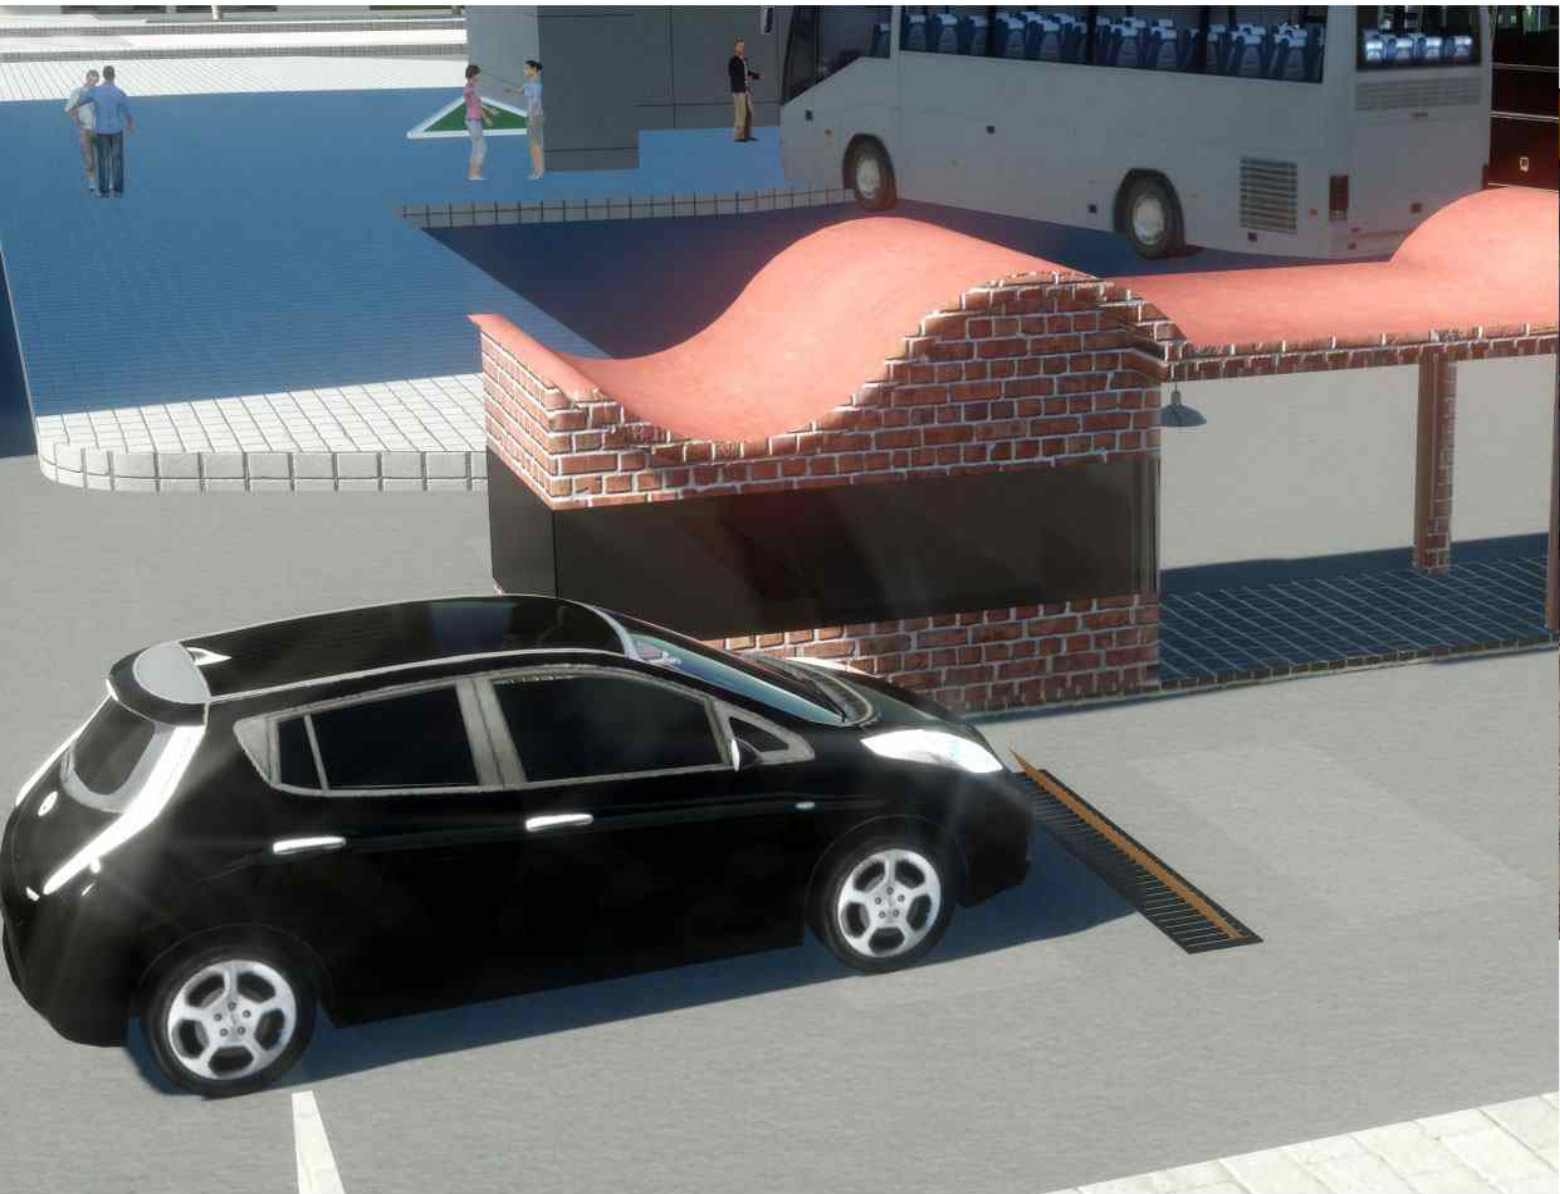

Pro Traps

Quality:

Our products manufactured in the world standards, along with maintaining its existing quality is continuously developing it with the efforts of our Research and Development team. It possesses ISO 9001-2008, TÜV CERT, TSE-HYB, and CE certificates as Quality Certificates.

Hydraulic Trap

Assassination type traps have been specially designed for places requiring high security.

Hydraulic Traps

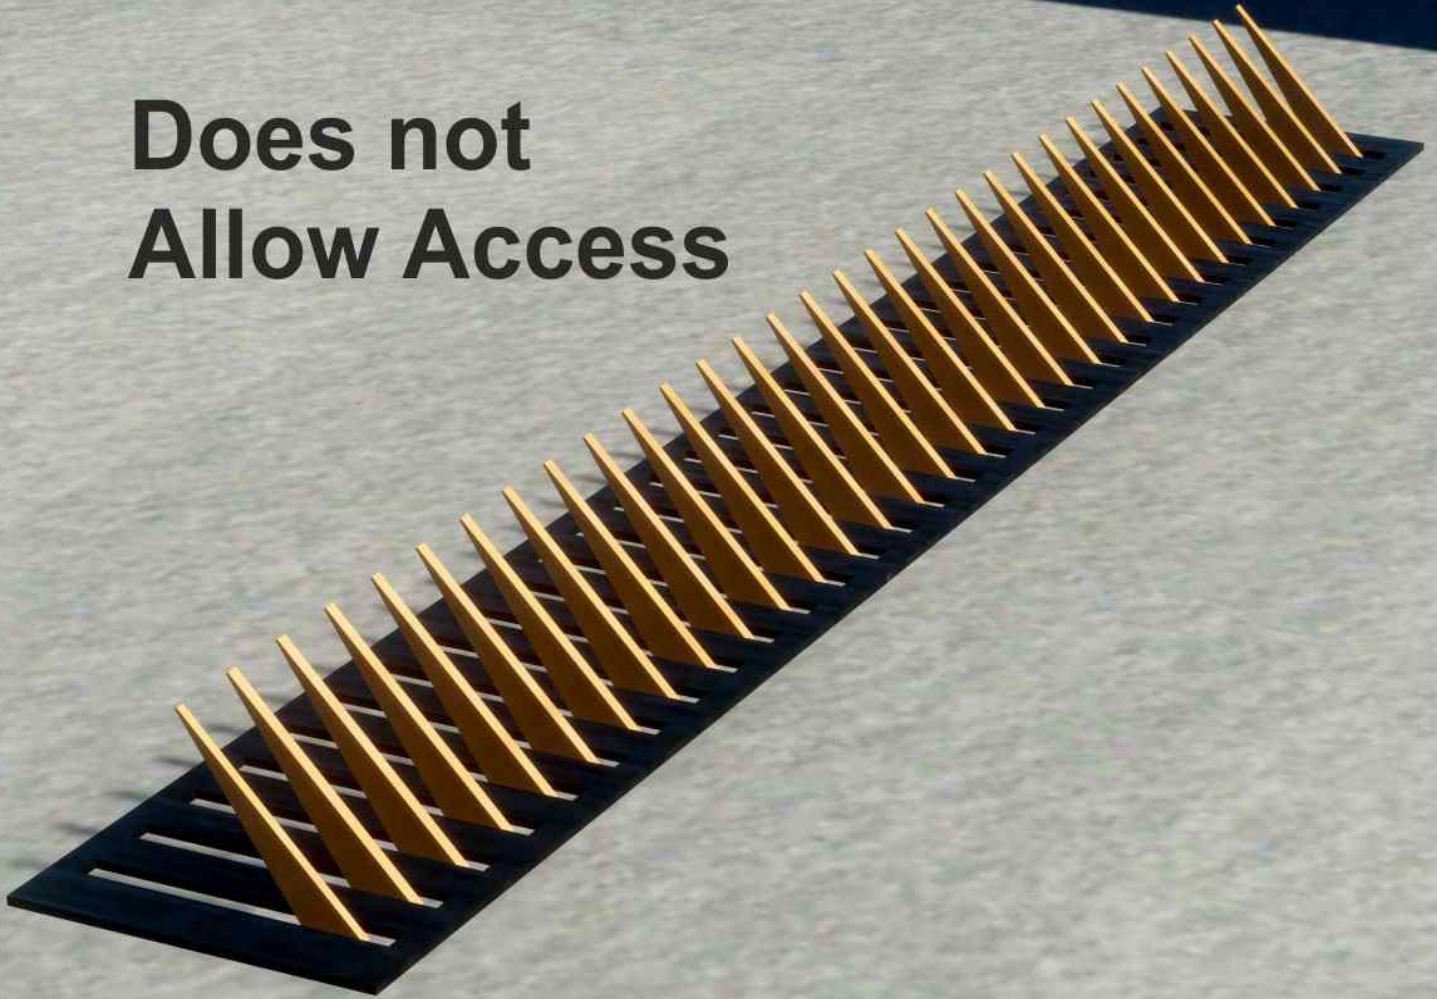

While the other traps only puncture the tires of the vehicle, the assassination trap causes big damage at the bottom of the vehicle with its steel knives of 350mm height, 20 mm thickness and staying open with 45 degree angle and prevents the vehicle entering inside.

Harmonic with all types of access control systems, in addition can open manually during power failure. Possesses durable operation feature by means of hydraulic system.

**Does not
Allow Access**

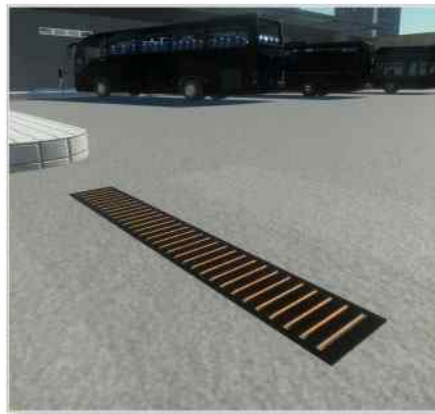

Controlled entry and exit

The traps often preferred in automation systems is a strategic product proposed for entries and exits in such as customs and border gates, sites, apartments, warehouses, military and police centers.

The control of the hydraulic traps is completely in the hands of the user and can be controlled by remote control, button, code panel, passage with card and mobile telephone.

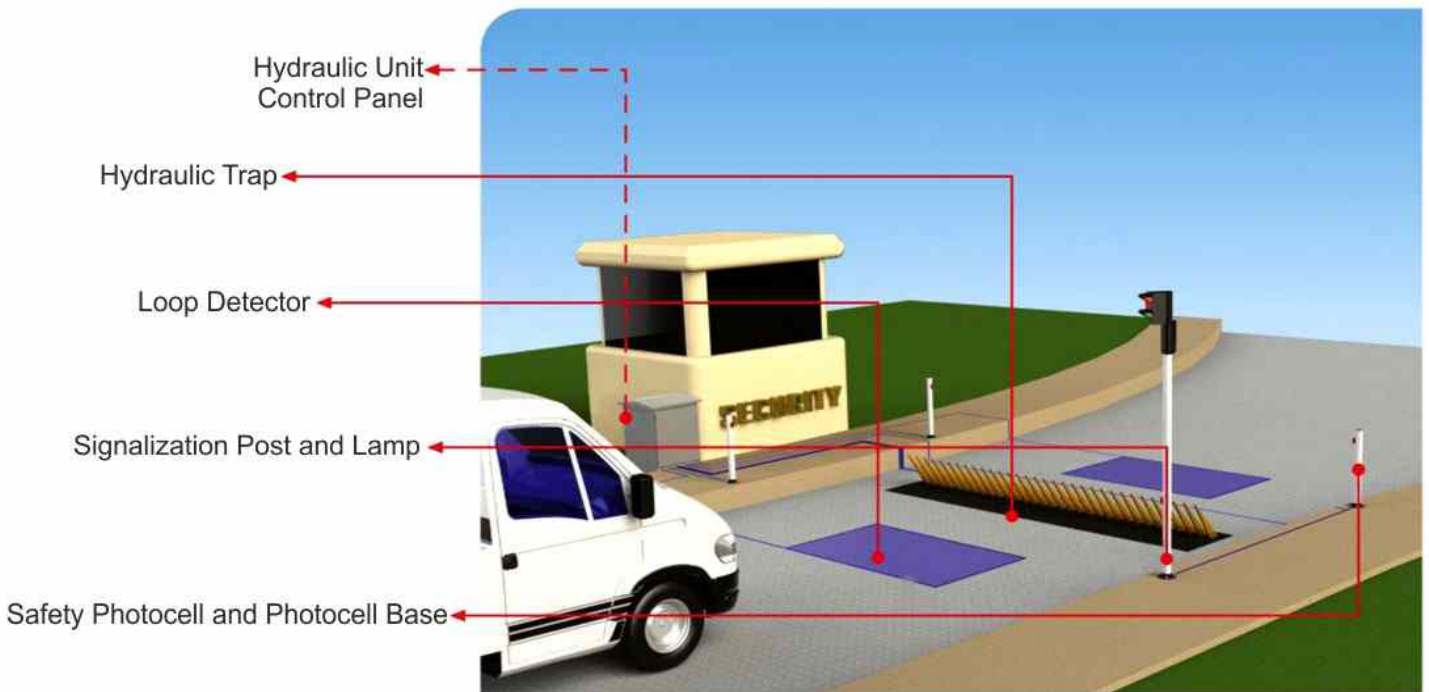

Expert Team

Our firm is reaching the end users through service personnel who are experts in their fields and is providing service in the estimation, planning, installation, and after sales phases as a whole.

Hydraulic Traps, Technical Information

Type	Apachi H 200	Apachi H 300	Apachi H 400	Apachi H 500	Apachi H 600
Length	2	3	4	5	6
Operation System	Hydraulic				
Motor Power / Kw	0,55				
Minimum Operation Pressure	20 Bar				
Maximum Operation Pressure	100 Bar				
Draw Current / A	1,6				
Power Source	380V / 50-60 Hz				
Open-Close Speed	4-6 Sn				

After Sales Services

White Rose is providing after sales services in the highest standards through its Authorized Dealers available in almost every region across the world.

Manual trap

Manual traps produced by taking into consideration the desire of the end user within White Rose automation systems are designed to disallow entry from the opposite at places such as sites, warehouses, and service locations.

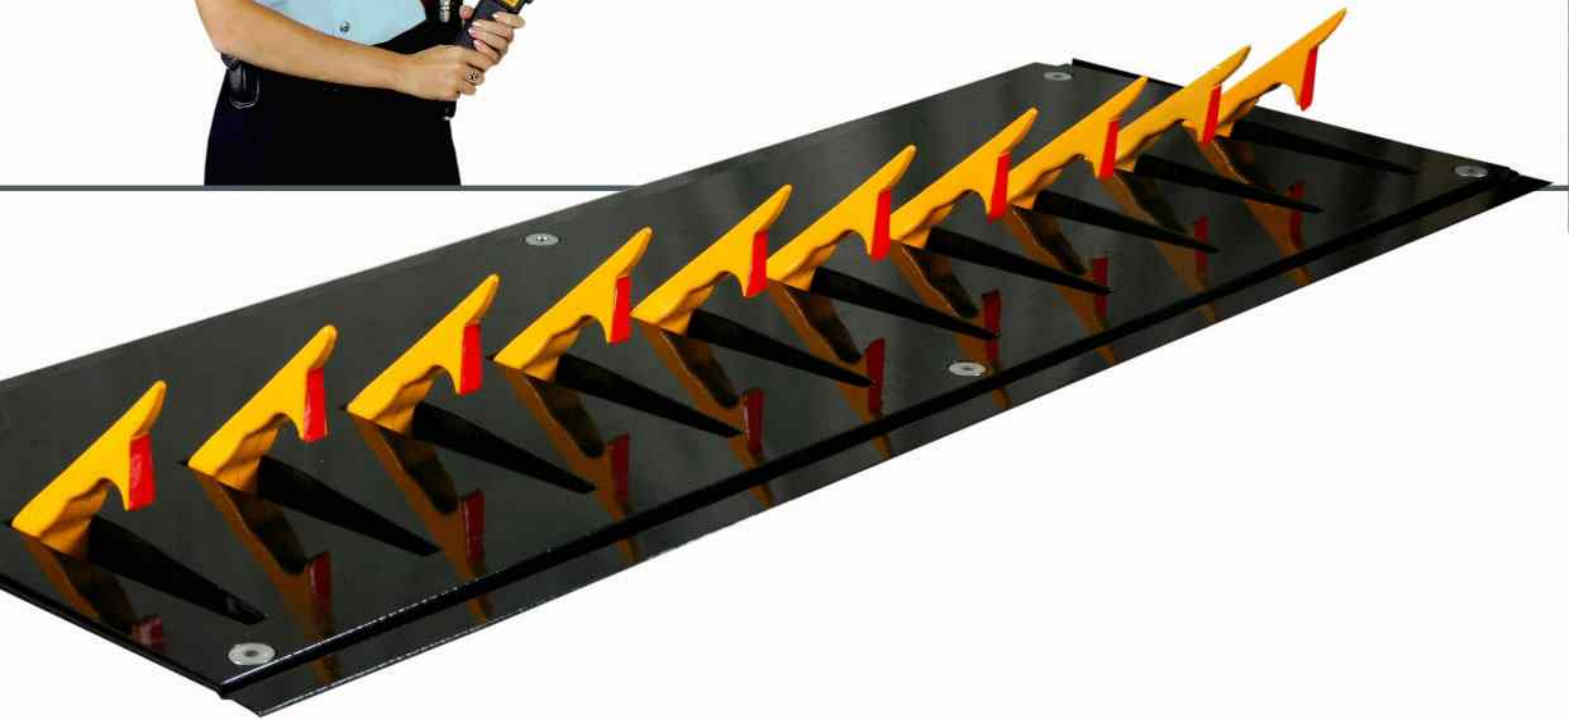

Solutions suitable to problems

Manual trap which does not allow entry from the opposite direction is being manufactured to permit the closure all of its knives in cases such as fires produces optionally per desire of the client as well.

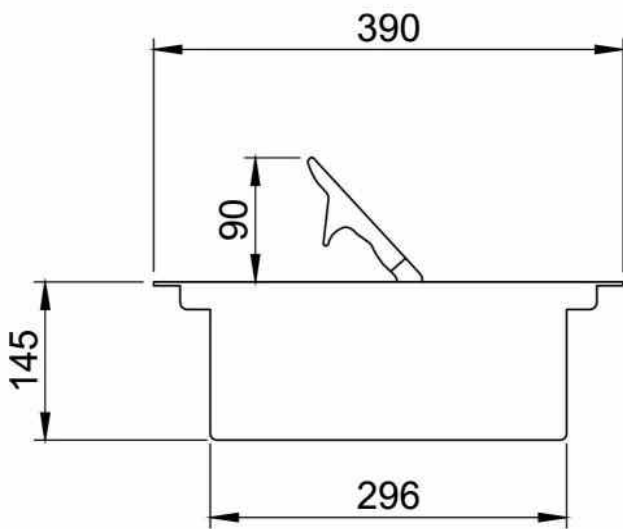

Economic Solution

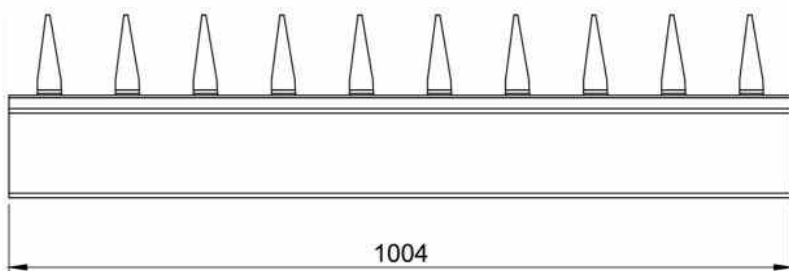

Convenient cost

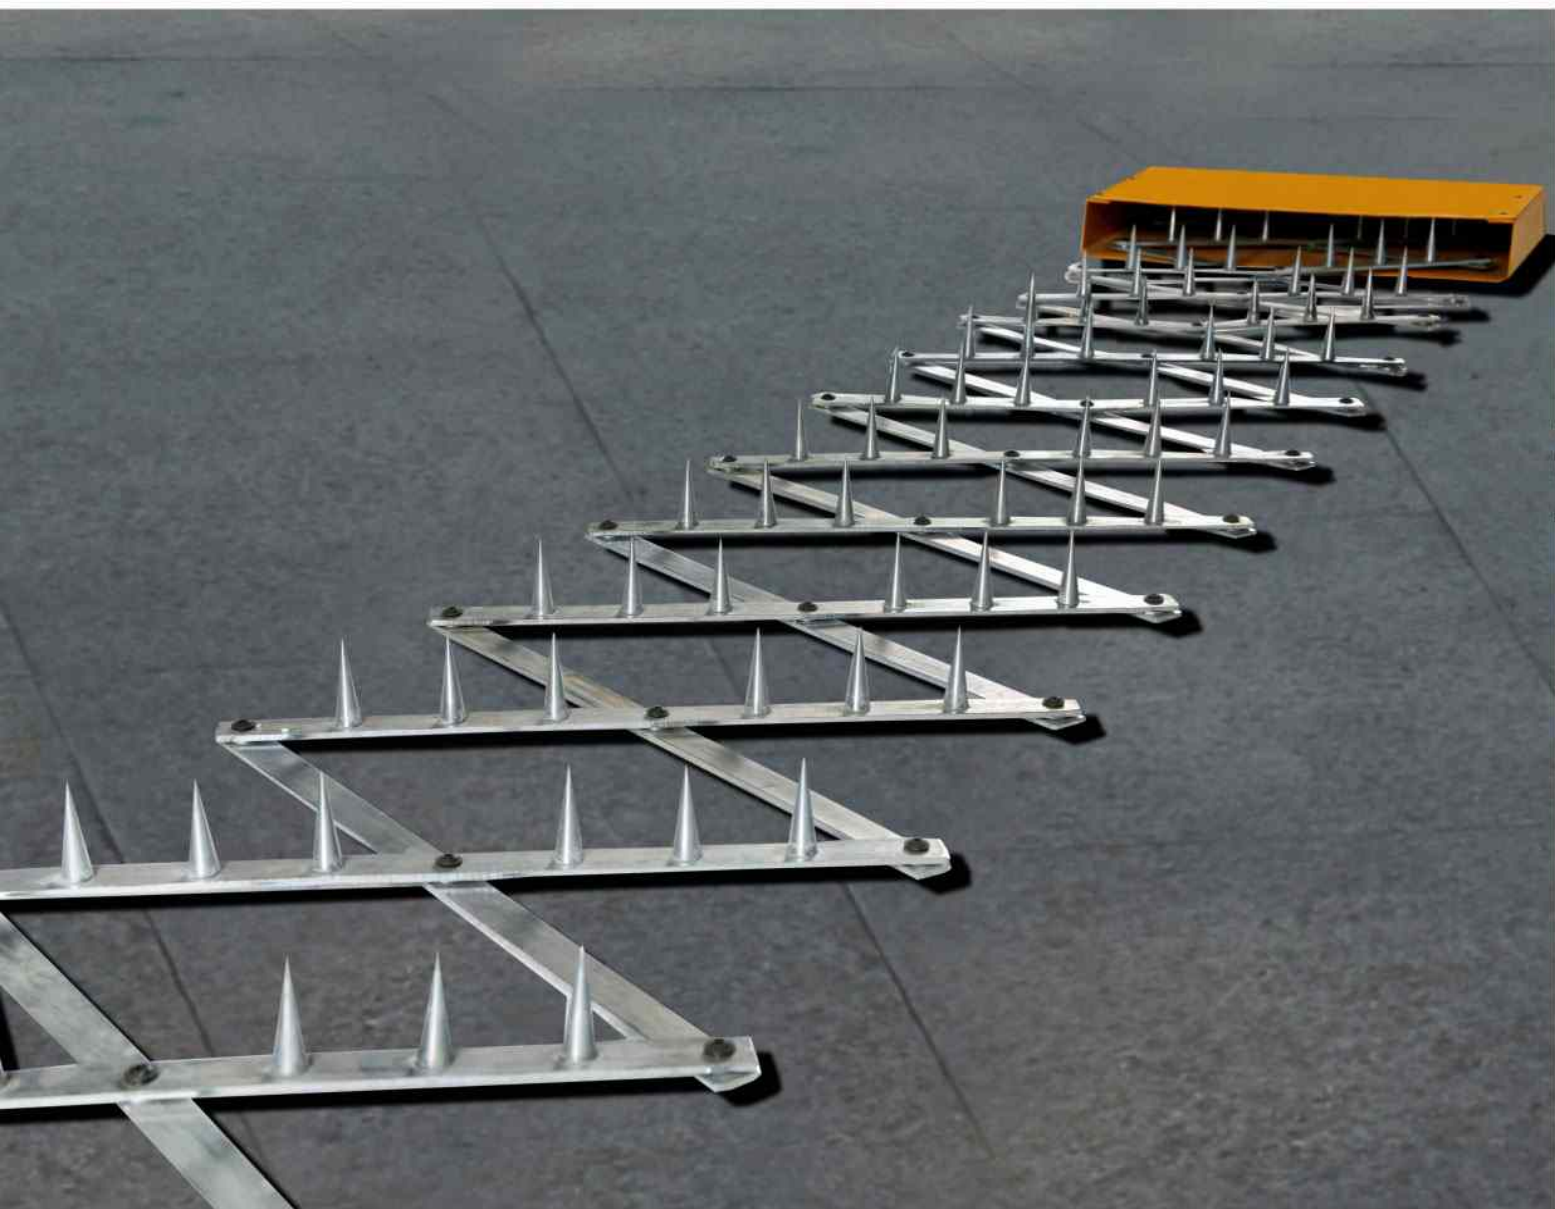

Manual traps are being preferred as a practical solution with its convenient price and easy application. It is attracting the notice of the drivers particularly in the night by means of reflectors placed in the front.

Manual Trap, Technical Information

- ✓ Easily changeable knife.
- ✓ Reflected tape with night vision.
- ✓ Selection of wall thickness of top plate
- ✓ Sound absorption feature while vehicle passes.
